

Hanmoore Financial Solutions

INVITES YOU TO A
VERY SPECIAL EVENT

“The New Reality”

Back in 2005 and 2006, Jonathan Pain was almost alone in foreshadowing that America was experiencing a housing bubble that was ready to burst. As we know he was proven to be correct.

Today Jonathan believes that the world is increasingly divided between those nations that are submerging and those that are emerging. Where does Australia sit in this “Great Divide”? What will be the key factors that shape and define “The New Reality”? Jonathan will take you on a tour of the world moving from West to East, via the Middle East, in an attempt to see where we are heading in the years and decades to come.

Jonathan Pain

Jonathan is a highly sought after speaker who Hanmoore has been fortunate to secure for our clients. He is the author of the widely read investment newsletter “The Pain Report”. He has 25 years of investment experience including Chief Investment Strategist of HFA Asset Management and Chief Investment Officer of Rothschild Australia Asset Management.

Jonathan is well known for his contrarian views and for pulling no punches in outlining how he sees the world. He is also an extremely entertaining and enlightening speaker, so this is a presentation not to be missed.
